

# LASH LIFT TREATMENT CARE

OFF & ON lash lift is a revolutionary lash treatment that creates masses of length, volume and lift with your own natural lashes. No mascara. No extensions. No maintenance.

## WHY LASH LIFT

If you're looking for a long-lasting, low maintenance, natural looking eyelash enhancement then a lash lift is for you. The process involves straightening and lifting your natural lashes at the root, then tinting them to give you the appearance of longer fuller lashes. Which means no clumps, no mess, just great lashes from the moment you wake up.

- A lash lift should last you from 6-8 weeks and unlike lash extensions, requires zero maintenance after the first 48 hours.
- Lash lift works on majority of lash and skin types
- Your lash lift appointment will take one hour, just sit back and relax.

## WHAT YOU NEED TO KNOW

### PRE TREATMENT

- 3 days prior to your lash lift treatment, stop using any eyelash growth serum
- At least 24 hours before your appointment, you will need to have a patch test (ask your technician for more info).

### POST TREATMENT

- For the first 24 hours after your treatment, it is essential to not allow water to come in to contact with your lashes.
- For 2 days afterwards, do not steam your face, use a steam bath, swim or wash your face with hot water.

### ON-GOING POST TREATMENT

- Do not use waterproof mascara
- Use oil free make-up remover if mascara is worn (only use a water-based mascara)
- Don't rub your eyes when washing your face - always pat the lashes dry after cleansing
- Ensure lashes are not manipulated into different positions (e.g. when sleeping, cleansing the face, applying moisturizer or cosmetics).
- Do not use lash curlers.
